Memo No. 2854(CFMS)-AH-4-2021/
Chandigarh, dated

3191
21/5/21

Subject:- Scheme for conservation and development of Indigenous Cattle and Murrah Development for the Year 2021-22(N).

Ref. Your memo No. 2605 P-2, dated 07.04.2021.

The Governor of Haryana is pleased to accord administrative approval-cum-financial sanction to the continuance of scheme cited as subject during the year 2021-22 on non-recurring basis at a total estimated cost of 175.00 lakh (Rupees One Crore Seventy Five Lakhs only) for the 1st quarter 25% subject to the following conditions:-

- i) Scheme is approved in the budget Estimate of the department.
 - ii) No new post will be created under the scheme and no vacant post would be filled up without prior approval of Finance Department.
 - iii) The expenditure of the year will be passed out in four quarters viz 1st quarter 25%, 2nd quarter 20%, 3rd quarter 25% and 4th quarter 30%.
 - iv) Instructions on economy measure issued by the Finance Department from time to time will be strictly adhered to.
2. The revised sanction will be issued in case the provision of the scheme is modified any stage.
3. The expenditure will be debited to the budget head:-
**"2403-Animal Husbandry
102-Cattle and Buffalo Development
(66) Scheme for the Conservation and Development of indigenous Cattle and Murrah Development for the year 2021-22 (N)"**
4. The Director General, Animal Husbandry & Dairying, Haryana, Panchkula will be the over all controlling and Drawing & Disbursing Officer for the scheme. Besides this, the Deputy Directors, Intensive Cattle Development Project, Ambala, Karnal, Kurukshetra, Bhiwani, Sirsa, Jind, Gurugram and Deputy Director, Animal Husbandry & Dairying, Charkhi Dadri, Fatehabad, Faridabad, Hisar, Jhajjar, Kaithal, Narnaul, Panchkula, Palwal, Panipat, Rewari, Yamunanagar, Rohtak, Sonapat and Mewat at Nuh will be the Drawing & Disbursing Officers of the scheme.
5. This sanction issued in accordance with the instructions issued by the Finance Department as conveyed vide their U.O. No. 5/6/2005-5 B&C, dated 18.04.2013.

Subject: - Scheme for Conservation and Development of Indigenous Cattle and Murrah Development for the year 2021-22 (N)

Memo

This scheme in principle stands approved by the Government in the State Revenue Budget for the year 2021-22 for which an amount of Rs. 700.0 Lakhs is earmarked. It is a non-staff scheme and will be implemented with the help of the existing staff.

Brief Background:-

Haryana holds a significant place in milk production in the country. The annual milk production has increased from 107.26 to 117.34 lakh tonnes in 2019-20. The latest per capita per day availability of the milk in the State has increased from 1087 grams to 1142 grams which is second highest in the country.

Animal Husbandry is an integral part of agriculture along with a major contributor i.e. 25.6% of Agricultural Gross Domestic Product (AGDP) and 4.11 % of total GDP of country and thus is endowed with a high potential of self-employment opportunities. Animal husbandry also contributes 5.5 % to total of State Gross Domestic Product of Haryana.

In present scenario, when growth rate in crop production is stagnating, it is the Animal Husbandry Sector which holds promise for achieving higher growth rates in State Gross Domestic Product as well as providing employment to the unemployed.

- This scheme is being implemented by the department in the State with the objective of Conservation and Development of the Indigenous Breeds of cows and buffaloes.
- Being the home tract of famous cow and buffalo breeds, the State is under moral, social and national obligation to undertake integrated development of buffalo breed **Murrah** and **Haryana, Sahiwal and Belahi** breed of cattle. The potential to enhance the productivity of the Indigenous Breeds through professional management and appropriate nutrition is immense. For this, it is essential to promote Conservation and Development of Indigenous Breeds.

- In spite of having quality genetic resources, the productivity of indigenous cows in the State has not increased up-to the desired level, mainly because of indiscriminate breeding, poor management conditions and unscientific feeding practices.
- It needs no emphasis that India possesses more than half of the buffalo population of the world with a majority of the recognised breeds. Haryana, being the home tract of the world famous Murrah buffaloes, has a prominent place on the animal husbandry and dairying map of the country. Prior to start Integrated Murrah Development scheme, high yielding Murrah buffaloes were used to be selectively purchased by middlemen and sold to dairies in metro cities. After end of lactation, on becoming dry, these buffaloes usually ended up in slaughter houses of the metro cities. In this way a highly valuable germplasm of such an important breed of buffaloes was being lost.
- Murrah buffaloes are great milk producers with high fat content (6.5 - 9 %) and in addition, efficient feed converters even when fed on poor quality roughages.
- Further, it is source of quality lean meat and valuable draught power. Most of the States procure their breeding stock from Haryana for up-gradation of their low producing buffalo population. The fast genetic improvement of Murrah is not only the top priority for our State but also a national concern. The top quality Murrah germplasm presently available in the State needs to be identified through performance recording preserved and further multiplied.
- Therefore, to encourage the farmers to conserve and up-grade this valuable genetic resource, this Scheme is being implemented.

Long term objectives:-

- i. Conservation and up-gradation of valuable germplasm available in the State.
- ii. Increase in milk production and overall productivity.
- iii. Improvement of nutritional condition for elite livestock.

Medium term objectives (5 years Horizon):-

- i. Identification of top quality germplasm of indigenous breeds of Cow and buffalo and their insemination with high quality semen for sustainable genetic improvement.
- ii. Encouraging the farmers to rear high yielding animals of genetic merit.

Description of Scheme:-

- Murrah buffaloes meeting the bench mark of 18 kg daily peak yield would be properly identified (with ear tags) along with their progeny. Cash incentives ranging from **Rs. 15,000/- to Rs. 30,000/-** would be provided to owners of these buffaloes.
- Haryana, Sahiwal and Belahi cows, meeting the bench mark of 8 kg, 10 kg and 5 Kg peak yield respectively would be properly identified (with ear tags) along with their progeny. The cash incentives ranging from **Rs. 5000/- to Rs. 20,000/-** would be provided to owners of these cows.
- The beneficiaries will be under obligation not to sell the buffalo/cow and its progeny for at least one year as the main objective of scheme is to conserve the indigenous breeds of Cow and buffalo. The identified animals would be insured and part of insurance premium will be borne under the prevailing insurance scheme and rest will be paid by the beneficiary as per insurance scheme.
- If no Livestock Insurance Scheme is in operation then the beneficiary would have to arrange for the insurance of the animals on its own and the insurance premium shall be paid by the beneficiary.

Annual Objectives and Impact expected:-

A target to identify 850 Murrah buffaloes and 1600 indigenous cattle has been laid down by the department for the year 2021-22, however, the benefit under the scheme would not be denied to any eligible owner of Murrah buffalo / indigenous cattle simply because of the reason of achievement of cent-percent targets. This target would not restrict milk recording of more buffaloes/cattle, if otherwise found eligible. The department intends to implement this scheme with an outlay of Rs. 700.00 lac in the current Annual Budget 2021-2022.

The expected impacts are as follows:-

- Migration of quality germplasm will be reduced if not stopped altogether.
- In situ' Murrah/Indigenous Cattle Germplasm Bank would become available from where other States and organization can meet their demand for good quality genetic material required to upgrade their stock.

Brief of Achievements under the Scheme for last three years:-

The department has identified 4823 high yielder Indigenous Cows of Haryana, Sahiwal and Belahi breeds 2592 Murrah buffaloes under the Scheme in last three years.

Process of submission of online application by the applicant:-

Any eligible owner of true to breed quality Murrah buffalo / indigenous cattle (Haryana, Sahiwal and Belahi) desirous of participating under the scheme would have to apply online on the SARAL Portal: <http://saralharyana.gov.in>. The applicants may submit application themselves on the portal or through Common Service Centres, Antodaya Kendra, Atal Sewa Kendra, e-disha Centres or any other such centre as provided by the Government from time to time. The applicants shall also be required to upload following documents during submission of their online applications.

- i. Copy of Aadhar Card
- ii. PPP ID
- iii. Copy of PAN Card
- iv. Copy of Bank Pass Book
- v. Copy of Cancelled Bank Cheque

Eligibility conditions for an Applicant:-

- The applicant must be a resident of Haryana of minimum age 18 years old. Any group/firm/ organization would not be permitted to apply under the Scheme, as the Scheme being an individual beneficiary oriented.
- A Cow or Buffalo eligible to be recorded must be between 5 to 30 days of date of its Calving.
- A maximum of two animals per applicant / beneficiary (two Cows or Two Buffaloes or One Cow and One Buffalao) would be eligible for the incentive money under this scheme.
- However, the recordings of more than two Buffaloes/Cows of an applicant may be carried out for collecting the data of the top quality Murrah Buffaloes/ Indigenous Cattle (Haryana, Sahiwal and Belahi). But incentive money would be provided only for two animals (in highest slabs) of that applicant in a particular year.
- Further, if the incentive is provided to a beneficiary for a particular animal twice, such beneficiary would stand debarred for receiving incentive for that particular animal in its subsequent calving in future. **In simple terms, incentive for a particular animal could be provided only twice in its life span in two calving, once per calving only.**

Roll out plan of the Scheme in Terms of Commencement of Activities:-

Identification of top milk yielding Murrah and Indigenous Cattle (Haryana, Sahiwal and Belahi) involves field performance recording for peak daily milk yield for consecutive four times including emptying, monthly recording to assess lactation yield through monthly recording by para vets, insurance of recorded buffaloes/cattle, procurement and rearing of buffaloes / cattle male calves as breeding bulls as per policy requirement if any.

Procedure after submission of online application by an Applicant:-

- Once the applicant has applied online on SARAL portal the application would stand submitted to Sub Divisional Officer (Animal Husbandry) of the concerned Sub Division who would examine the application and if found not in order the same would be rejected. However, if application is found in order then the Sub Divisional Officer (Animal Husbandry) would accept the application online and the print-outs of the same would be taken along with enclosures.
- Within three working days of acceptance of online application of the applicant, Sub Divisional Officer (Animal Husbandry) would intimate and ask concerned Veterinary Surgeon, I/C Government Veterinary Hospital for verification of the breed of buffalo (Murrah) / indigenous cattle (Hariana, Sahiwal and Belahi) of the applicant in the format annexed as **Annexure-I** after receipt of which the Veterinary Surgeon would report to Sub Divisional Officer (Animal Husbandry) within three working days in the format annexed as **Annexure-II**.
- After receipt of breed verification report from Veterinary Surgeon; the Sub Divisional Officer (Animal Husbandry) would intimate the Deputy Director of concerned district and request for fixing date and venue of milk recording in the format annexed as **Annexure-III**. Deputy Director of concerned district would write to Committee for recording milk and the applicants intimating date and venue of Milk Recording in the format annexed as **Annexure-IV**.

Field performance recording for production performance:-

Identification of bull mothers and their categorization according to production potential is the preferred strategy under our conditions where record keeping by farmers is totally missing. The present practice of recording the peak milk production at a Public Institution (in full public view) following a prior notice of one/two weeks by the following committee would continue. The committee for recording peak milk yield of the buffaloes would be as follows-

- i. Deputy Director, Animal Husbandry or his representative not below the rank of Sub Divisional Officer (AH)
- ii. Semen Bank Officer/any Veterinary Surgeon deputed by Deputy Director
- iii. Area Veterinary Surgeon
- iv. Concerned BLEO
- v. Representative of Village Panchayat- Sarpanch or Ward Member

Only the animals possessing true breed characteristics will be allowed to participate in the performance recordings. Milk production shall be recorded for four consecutive timings (Morning and Evening) and an average of the last three milking would be counted for calculation of the peak yield in the format annexed as

Annexure-V. The first recording would be treated as "Emptying/Stripping milk yield".

If the buffalo/cow of an applicant qualifies for any of the slabs of milk yield then the applicant would have to submit a Self-Declaration to the Committee in the format annexed as **Annexure-VI** undertaking for not selling the recorded buffalo/cow and its progeny for atleast one year and also that the Animal Husbandry & Dairying Department, Haryana shall have the first right to purchase the progeny (male calf only) of the recorded buffalo / cow along with other conditions if any under the Scheme.

After the milk recording by the committee, monthly recordings of milk yield would continue by Veterinary Livestock Development Assistant of concerned Government Veterinary institution. The concerned Government Veterinary Hospital would be responsible for maintaining complete records of such monthly milk recordings which would be monitored by the officers of the Department.

A copy of all records in the form of a booklet for each animal will be given to the owners who will be encouraged to maintain and update the production, reproduction and health records with the help of area veterinarian/ para staff/ milk recorders. The records will be pooled and compiled at the levels of Sub Division, District and Headquarters and all data will be computerized.

Verification of Recorded Buffalo and Cow after four months of Peak Milk Recording before releasing Incentive money:-

After four months of peak yield recording by the Committee the recorded buffalo and cow would be physically verified by the Veterinary Surgeon of concerned Government Veterinary Hospital and Verification Certificate would be submitted to Deputy Director of the district in the format annexed as **Annexure-VII**. After receipt of the Verification Certificate the Deputy Director of the district would release incentive money in the bank account of the beneficiary.

The incentive money for Murrah Buffaloes recorded under this Scheme during FY 2020-21 shall also be payable after four months of date of recording subject to verification of animals as above.

Provision of Publicity and Extension under the Scheme:-

- Block Level Extension Officer (B.L.E.O.) shall be responsible for wider publicity of the Scheme in the concerned block. The B.L.E.O. shall identify and encourage the owners of quality Murrah buffaloes/ Indigenous cows for applying under the Scheme and also assisting them in online application submission on SARAL portal.
- Veterinary Surgeon and Veterinary Livestock Development Assistant of the area will also be responsible for publicity of the Scheme in areas under their jurisdiction. The livestock owners would be provided information and encouraged during various Health Care Camps, Kisan Gosthis etc
- Publicity and Extension Branch at Headquarter would be responsible for wider publicity and extension of the Scheme through printing of pamphlets, booklets and through other extension materials.

Cash flow Requirement as per Roll out Plan:-

The incentive money shall be provided on the basis of peak milk yield recorded. Subsequently, cumulative monthly milk recordings will also be taken into account for more accurate assessment of the lactation yield.

Cash incentive at the following rates in different slabs would be provided to the owners of the recorded Murrah buffaloes (after four months):

Slabs of Lactation yield in Kg (Peak Yield in Kg)	Incentive Money (Rs.)
18 to 22 Kg	Rs. 15,000/-
>22 to 25 Kg	Rs. 20,000/-
above 25 Kg	Rs. 30,000/-

Cash incentive at the following rates in different slabs would be provided to the owners of the recorded Cows of breeds as below (after four months):

Haryana Cows	
Slabs of peak Yield in Kg	Incentive Money
8 to 10 Kg	Rs. 10,000/-
>10 to 12 Kg	Rs. 15,000/-
Above 12 Kg	Rs. 20,000/-

Sahiwal Cows	
Slabs of peak Yield in Kg	Incentive Money
10 to 12 Kg	Rs. 10,000/-
>12 to 15 Kg	Rs. 15,000/-
Above 15 Kg	Rs. 20,000/-

Belahi Cows	
Slabs of peak Yield in Kg	Incentive Money
5 to 8 Kg	Rs. 5000/-
>8 to 10 Kg	Rs. 10,000/-
Above 10 Kg	Rs. 15,000/-

In lieu of the cash incentive provided, the owner would be under obligation not to sell the recorded buffalo/cows and its male progeny at least for one year. The beneficiary would be further bound to look after the male calf properly and the Department will have the first right to purchase it. In case, the beneficiary does not abide by the contract i.e. disposes of the identified buffalo/cow and/or its male calf, he would not be eligible for further participation in scheme. The owners of the recorded buffaloes/cow would be required to breed their animals through

artificial insemination through semen / sex sorted semen supplied by government to propagate high genetic pool.

Any pending committed liability created in this scheme during previous year will also be met from the scheme during this year.

In the light of the aforementioned proposal Government is requested to accord administrative-cum-financial approval for Rs. 700.00 lac to implement this scheme. The expenditure involved shall be debited to the budget grant on following head:-

2403 - Animal Husbandry

102 - Cattle & Buffalo Development

(66) - Scheme for Conservation and Development of Indigenous Cattle and Murrah Development 2021-22 (N)

Director General, Animal Husbandry & Dairying, Haryana, Panchkula will be the overall controlling and Drawing & Disbursing Officer for the scheme. Besides this, the Deputy Director, Intensive Cattle Development Project, Ambala, Karnal, Kurukshetra, Bhiwani, Sirsa, Jind, Gurugram and Deputy Director, Animal Husbandry & Dairying, Charkhi Dadri, Fatehabad, Faridabad, Hisar, Jhajjar, Kaithal, Narnaul, Panchkula, Palwal, Panipat, Rewari, Yamunanagar, Rohtak, Sonapat and Nuh will be the Drawing & Disbursing Officers of the scheme.

Chief Coordinator (FST)

 for Director General Animal Husbandry & Dairying
Haryana, Panchkula.
