Sub.: Allowing uninterrupted inter-state movement of feed ingredients for livestock and poultry

Dear Sir

With reference to the subject cited above, It is brought to your knowledge that the feed ingredients of livestock and poultry are not being received by feed mills for preparation of compound feeds for poultry and livestock, due to the lockout situation announced across the country because of Covid-19. In this situation, there is danger of large scale mortality of poultry and farm animals (cows, buffaloes, pigs etc.) which may further complicate the situation. Further, in this regard Govt of India has also requested the states to issue the necessary directions to the law enforcing authorities to include feed ingredients of poultry & livestock, live chicks, egg, meat etc in the list of essential commodities and to be exempted from the lock down situation and allow the inter and intra state transportation of the same (copy enclosed).

In view of the above, I shall request you to kindly refer to the necessary directions issued by the Government of India in this regard and impress upon the concerned Officers of your department regulating the lock-down to issue necessary permits to transporters of animal and poultry feed ingredients so that the livestock and poultry birds should not die due to hunger.

An early action in this regard will be highly appreciated.
