Subject: - Scheme for providing employment opportunities by establishing Piggery units for year 2019-20 (N).

Memo

This scheme is proposed to be implemented in the State for the year 2019-20. The scheme in principle stands approved by the Government in the State Revenue Budget for the year 2019-20 for which an amount of Rs. 50.00 lakh is earmarked. It is a non-staff scheme and will be implemented with the help of the existing staff.

Brief Background

Animal Husbandry is an integral part of agriculture alongwith a major contributor of Agricultural Gross Domestic Product and endowed with a high potential of self employment opportunities. In present scenario, when growth rate in crop production is stagnating, it is the animal husbandry sector which holds promise for achieving higher growth rates in State Gross Domestic Product as well as providing employment to the unemployed. There exists a vast potential of self-employment generation in Animal Husbandry and Dairying sector. The establishment of piggery units can generate substantial employment (direct or indirect). There is well-knit infrastructure of veterinary institutions catering to the needs of the livestock owners for providing veterinary and breeding services in the State. Further, vicinity of National Capital Region having ample marketing opportunities makes animal husbandry activities an attractive option for self employment to the unemployed in the State.

With a primary objective of providing self employment opportunities, the unemployed persons would be assisted by way of establishing piggery units. The pattern of assistance would be in the form of subsidy on the purchase of livestock. Further assistance would also be provided for insurance of the livestock.

Justification for the Scheme

There are 1.27 lac pigs in the State as per the 2012 livestock census. Haryana State has a vast potential of self-employment generation in the animal husbandry sector. The establishment of piggery units can generate substantial employment and also increase in livestock products such as meat.

Long term objectives

Long term objectives of the department in implementing this scheme are:-

- i. Creation of employment opportunities through Animal Husbandry activities.
- ii. Increase in meat production of the state.
- iii. Up gradation and conservation of valuable breeds/ germplasm available in the State

Medium term objectives (5 years Horizon)

The medium term objectives with a time horizon of 5 years are as follows:-

- i. To provide self-employment to the unemployed
- ii. To raise socio-economic status of livestock owners
- iii. To provide socio- economic security to weaker sections of the society
- iv. To increase meat production in the State.
